The Art Institute of Houston
DIGITAL FILMMAKING AND VIDEO PRODUCTION

A group of Digital Film majors at the Art Institute of Houston are currently seeking actors for multiple scene studies. There are a wide variety of roles from popular movies available in genres ranging from comedy to thrillers. (Age range from 20-45, both male and female)

Each scene will be shot with corresponding cinematography and mise-en-scene. The directors will work closely with the actors from rehearsals to recording. This is an excellent opportunity to quickly beef up an acting reel.

Rehearsal will be held in Houston, TX. For more information e-mail your headshot and pertinent information to the corresponding e-mail address.

Compensation will be at each director's discretion. Please note, while these scene studies will be cinematically shot and directed, they are not full productions.

For a list of available roles, please e-mail: AiHActingDirecting2015@gmail.com
